Summary from group discussions:

During the fourth videomeeting students discussed on various things:

- First, everyone introduced themselves.
- After that, everyone told what kind of weather they were having. For example, in Italy the weather was cold and rainy, in Finland cold and snowy.
- Second question was, did you have a long Christmas holiday? What did you do? In Italy, the holiday lasted three-four weeks, a week longer than one in Finland. The Czech team said that their holiday lasted about a week, and some students used that time to bake with their family. Italians mentioned that due to COVID-situation they didn't go anywhere.
- After that students discussed their new year's resolutions. Many said that they hadn't done any resolutions but were hoping that COVID would go away soon.
- Students also asked each others about the spring holidays. Most students talked about Easter holiday.
- The Finnish students were curious how many of the students in meeting were in Finland. Some of the students had attended the mobility in Finland and had rather liked it, apparently it had been quite an experience. Some talked about wanting to come to Finland one day.
- One of the last matters of discussion were: How many were going to come to Portugal? Some were coming.
- Students also discussed about school generally, different subjects in schools and different sports, what languages everyone speak and do people have pets and what kind of future plans students have.
